Wi-Fi Operating Guidelines

Effective October 2011

The Austin Convention Center Department [ACCD] is the exclusive provider for wired and wireless [Wi-Fi] services for the Austin Convention Center and Palmer Events Center. The ACCD Wi-Fi service offers internet access at speeds of up to 2 Mbps servicing clients, exhibitors and attendees.

Wireless internet service is vulnerable to interference from other wireless devices such as Wi-Fi routers, wireless cameras, cordless phones and personal Wi-Fi hotspots. Wireless users in the Exhibit Halls may experience higher levels of interference due to the nature of the event and any electronics/equipment that may be a part of a product demonstration or display. If you are conducting a product demonstration, presentation or streaming video over the internet, we strongly recommend the purchase of a wired internet connection.

ACCD requests your cooperation in eliminating/minimizing the use of these devices to improve the quality of wireless services in our facilities.

For additional information regarding our Wireless (Wi-Fi) Operating Guidelines, please contact the ACCD Exhibitor Services Division at 512-404-4000.

Thank You,

Service Access/Power Distribution Box Information

The Austin Convention Center has utility service access located in the floor 30' apart. These show up on the floor plan as small squares. Contact your Show Manager to obtain a show floor plan. A power distribution box spreads electrical power to the booths. It is approximately 24" x 18" x 6" with a 5' long, 2" thick cable plugged into the service hatch. We plug twist-lock extension cords in to the distribution boxes and run cords to your booth.

If its location is inconvenient, we can usually reposition the box or cover it. We can also remove it provided no other exhibitors are powered by it, but this restricts the amount of power we can deliver and may require sharing of electrical circuits. In addition, we will assess an additional charge for labor if you elect to have it replaced. Please call prior to your event if you have any questions.

Art for illustration purposes. Not to scale.

Fire Exhibit Regulations for Assembly Occupancies

The information contained in this brief outline does not by any means thoroughly cover the criteria and standards contained in the Uniform Fire Code, as adopted by the City of Austin, but it does provide the fundamental rules governing exhibits in any building open to the public.

The following entities are responsible for ensuring all regulations are followed: facility client, exhibitors, service contractors and the Austin Convention Center Department (ACCD). It is a requirement that ACCD reviews all event pre-planning documents and floor plans and is the only entity that can submit these documents to the Austin Fire Department for final review and approval.

Remember, the fire codes for Austin may be different from other cities, and exhibitors will be responsible for complying with the Uniform Fire code. ACCD will take reasonable steps to ensure that you are allowed to display your products effectively, as long as it does not create a fire or life safety hazard to you, other exhibitors or people attending the exhibit.

1. Floor plans for all shows are to be submitted to ACCD for review and approval. ACCD will submit the floor plans and event pre-planning documents to the Austin Fire Department's Fire Marshal for approval. An approved copy will be provided to the event client. A copy of the approved plans must be available on-site.
2. No display or exhibit shall be installed or operated as to interfere with access to or with the visibility of any required exit or exit sign, nor shall any display block access to fire equipment.
3. Any exhibit containing a roofed area of 100 square feet or more requires a fire extinguisher to be displayed at such exhibit.
4. All exhibit booths must maintain clear and appropriate exits from the booth. Any booth of 750 square feet or more must have a minimum of two exits as far from each other as possible.
5. Displays with any type of cover, e.g., tents, buildings, awnings, etc. must be 300 square feet or less; if larger than 300 square feet they must meet the following regulations:
 - a) A single level or multi-level exhibit larger than 300 square feet with a covered ceiling requires protection from an automatic extinguishing system.
 - b) A booth with an open grate style ceiling does not have to meet this requirement. If there is any question, please forward a copy of the booth plans for ACCD and Fire Department review.
 - c) The upper deck of the multi-level exhibit must have a minimum of two exits as far from each other as possible. If only one (1) exit, the second level is limited to seven (7) people at a time.
6. The storage of crates and combustible materials not on display (including packing materials) is not permitted inside the facility, on the dock or at dock bays. Limited empty crate storage is provided and confined to the area authorized by the Fire Marshal.
7. All curtains, drapes, any merchandise or material attached to drapes or table skirts, decorations and decorative or construction materials are to be non-combustible or flame-retardant. Documentation affirming non-combustible or flame-retardant properties must be available on-site.
8. Combustible waste is to be collected as it accumulates and should be stored in a non-combustible covered container which is emptied at least once a day.
9. The use of open flames, burning or smoke-emitting materials (candles, incense, lanterns) are not permitted in the facility.

10. Electrical equipment is to be installed, operated and maintained in a manner which does not create a hazard to life or property.
11. Whenever, in the opinion of the Austin Fire Department, it is essential for public safety in any place of public assembly, the owner, agent or lessee shall employ one or more qualified persons to be on duty. These individuals shall be subject to the Austin Fire Department's orders and shall be in uniform and remain on duty during the times such places are open to the public. Any fees are the responsibility of the client.

 - a) Display or storage of LPG (liquid propane gas)
 - b) Flammable or combustible liquids
